Work History

2020-01 -
Current

Frontend Developer

freelance, Cairo

through my journey on learning web development and develop i built:

- Dojo restaurant
 - landing page for restaurant view showing menu and more about the restaurant details with contact for reservation, built with a modern javascript framework (react.js) used tailwind for CSS and styling.
- Code Bank
 - the project was built with a modern javascript framework (react.js) used SCSS for styling, form validation.
- Versaye
 - Versaye online store is a single web page using plain HTML, CSS, JS (clone from Versage home page).
- Tip Calculator
 - This calculator focuses mostly on HTML & CSS There's a tiny bit of JS to Calculate the correct tip and total cost of the bill per person this page design based from @frontendmentor challenges.
